datavideo®

SE-200PRO Integrated Editing Center

Dual Channel Editor

The Datavideo Integrated Editing Center combines a unique set of high-technology video post-production tools:

Automatic Video Editor

High-resolution Color titler

Special Effects Generator

Deluxe Color Processor

Stereo Audio Mixer

Integrated Tools

Video Editor

Simple on-screen displays and advanced, professional-style EDL (Edit Decision List)

Memory stores up to four EDLs- allows editing of multiple videos down to one single tape

RCTC (Rewritable Consumer Time Code) and VITC (Vertical Interval time Code) technology for super-accurate editing

GPI remote control built in for triggering special effects

Infrared codes for most VCRs already pre-programmed

Color Titler

Razor-sharp text in crisp, rich color for professional-looking captions

Maximum 24 characters per line, 11 lines per page

Memory stores up to 99 pages of text (2600 characters)

Choice of pre-programmed font with various type sizes, colors, borders

User-programmable option allows customized characters and icons

Scrolling and tickertape effects

Special Effects Generator

24 different wipe patterns for sophisticated scene transitions

Unique animation effects - 24 pre-programmed styles

A/B roll and dissolve capability with synchronized sources (using Time Base Corrector, for example)

Memory stores 10 special effects for instant playback at the touch of a button

T-Bar control for smooth fading in and out - with eight vivid colors

Color Processor

R-G-B processor with easy-to-use, professional-style joystick control

Complete color and tint correction capability

White balancing and luminance control

Black-and-white effects capability

Audio Mixer

Deluxe stereo mixer with LED level indicators

3 input channels, each with volume control

T-bar control for professional A/B cross fading

Microphone included; earphone jack built in
